

Mock up review notes for Isa Martinez

1. Great illustration for first page!
2. I would use white or cream for background of the home page instead of black
3. Think about different ways to re-work “home page” design. Maybe text floats around image? Or image runs across top?
4. Red and orange looks great, also love type styling of Sans-serif for title and serif for body text.
5. Consider laying out “specimens” category in same “list” format as you have going for “spine” and “skull”
6. Good job!
