

## **Spinosaurus website notes**

**Creative director: Arthur Santoro**

**Designer: Isa Martinez**

1. Awesome job so far! I really like the orange and yellow color scheme and the white backgrounds for the body pages very well.
2. Your selection of images is great! They all feel very scientific, I would consider adding some more images to the paleo-biology section.
3. I also noticed the body text for the specimens overlaps when I collapse the website, but I'm sure your already working on it.
4. Keep up the good work!
